

DROPSAFE® POUCH

- **Instant Safety Solution**
(no tools required)
- **Provides a 5:1 Safety Factor**
- **Fully captures and tethers item being secured**
- **Heavy duty belt clip allows versatile use of item being secured**

The Dropsafe® Pouch secures loose items such as two-way radios, multimeters, aerosol spray cans, gas detectors and cameras while working at height.

Where to Use

All areas where work or access is required at height and where single hand use of a item is required and there is risk of dropping, damaging or losing an item.

How to use

1. Tighten cable leash around belt or harness to ensure secure fit.
2. Place item into the Dropsafe Pouch and attach the tree end loops to the carabiner.
3. Attach the Dropsafe Pouch with belt clip to belt or harness.
